PROFILE

Versatile website developer with a proven track record in WordPress, CSS, and JavaScript, excelling in crafting visually appealing and functional websites. Proficient in customizing WordPress themes and implementing dynamic features with JavaScript and CSS, I have successfully delivered projects that meet client objectives. Excited to pivot towards React.js, I am actively seekingopportunities to apply and expand my skills in this cutting-edge technology.

EXPERIENCE HISTORY

SOFTWARE DEVELOPER

IOURING PRIVATE LIMITED / 01/2023 - 09/2023

Worked in WordPress for website creation in Iouring Pvt Ltd for 6 months.

Project 1: Official Website of Iouring Pvt Ltd

Project 2: A project called Try-my-POS, which manages end-to-end restaurant operations.

Project 3: Website for a trading application

SOFTWARE INTERN

IOURING PRIVATE LIMITED / 06/2022 - 01/2023

During my six-month internship period at Iouring Pvt Ltd, I gained proficiency in **WordPress**, including **theme customization**, **plugin management, SMTP Mail Configuration,** and **website optimization**. I successfully implemented website enhancements, improving user experience and site performance. Also, I developed a foundational understanding of **JavaScript**, enabling me to contribute to interactive website features and functionalities. Hands-on experience in **Azure DevOps**.

SOFTWARE INTERN

SYSBREEZE TECHNOLOGIES, KINFRA TECHNOPARK / 07/2019 - 07/2019

I completed a 15-day internship at SysBreeze Technologies. Where I learned the fundamentals of webpage creation, including HTML, CSS, and Bootstrap.

TECHNICAL STRENGTH

Documentation

Programming for Everybody (GettingStarted with Python),
